EN 14404 2004+A1 2010, type 1, level 1 together with knee protection art 4027

EN 14404 2004+A1 2010, type 1, level 0 together with knee protection art 4057

Knee pocket that together with kneepads 4027 and 4057 becomes a type 1 knee protection. The CORDURA® stretch kneepad pocket 4067 is wearable at times when work on your knees is required.

The pocket that has airy mesh on the back for extra ventilation fits Blåkläder's kneepads 4027 and 4057 and comes in three sizes.

Thanks to its material and design, the pocket is comfortable and it is also possible to adjust in the upper part with its velcro.

The kneepad pocket is used with shorts for those times you want shorter pants but at the same time you need knee protection.
